3	Heating stand	Use the heating stand to dry the dryer unit when the display window is dark green
4	Timer display	Indicates when the heating stand is on
5	Rubber feet	Installed under the heating stand

Product Operation Guide

When use this dryer for the first time, please check whether the silica gel in display window is orange or not. If it is orange, then no need to restore it. If 1t is dark green, please put it on the heating stand and power it on until it is turned to orange

1. Connect the heating stand to the power supply. Put the dryer unit onto the heating stand, the timer display will display numbers 150, it means default timer is 150 minutes. It starts counting down 150, 149, 148...100, 099, 098...010, 009, 008...001, then display turn off and the fan continues working for 1 minute to cool the stand.

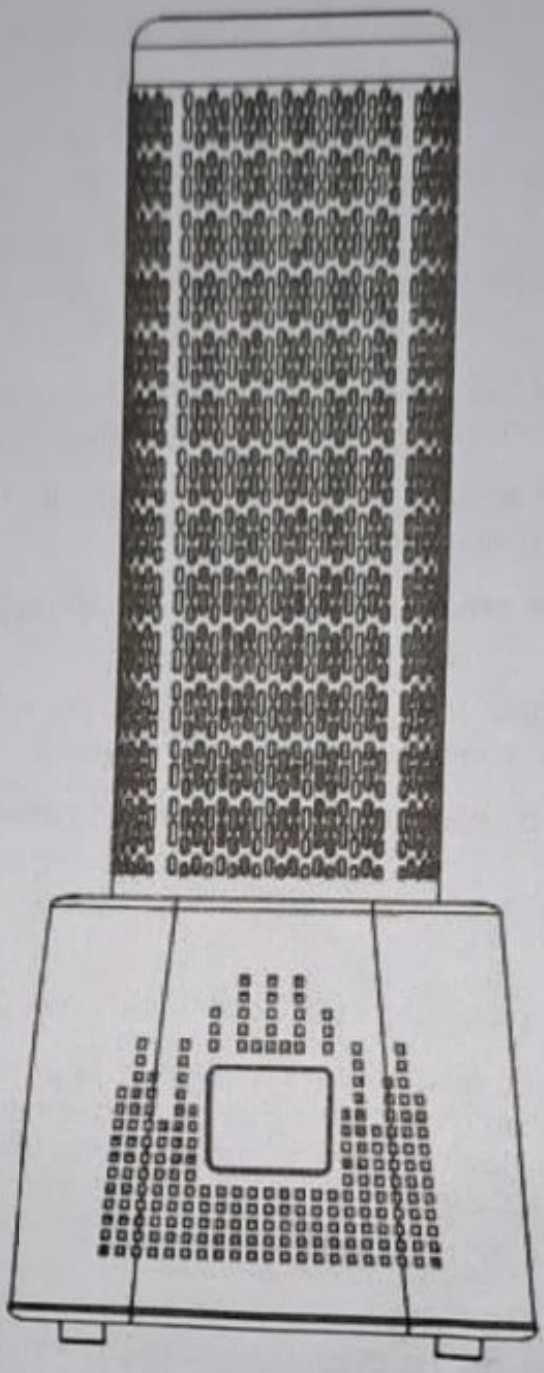

2. When the silica gel in the moisture display window is in orange, it means the dryer unit can start drying directly. You can place it in the wardrobe, closet, cabinet and other spaces to absorb moisture.

3. When the silica gel in the moisture display window is in dark green, it means the dryer unit is wet and full of moisture. Put the product onto the heating stand, the display will display 150 and start counting down. It will automatically turn off after heating for 2.5 hours. If the silica gel in the moisture display window changed to orange, it means the dryer unit is dry and can be reused for drying again.

Note: Due to different environment, if the silica gel in display window does not change to orange after charging for 2.5 hours, it means the silica gel is not completely dry. Please pick up the dryer unit for 3 seconds and put it back to the heating stand to heat again until the moisture silica gel is dry and restored.

When pick up the dryer unit when heating, it is normal the heating stand continues working for 1 minute to cool down the stand.

User Manual

Portable Dryer

Model: DH108

Thank you for purchasing our Portable Dryer. Please read this user manual carefully and keep it in a safe place for future reference.

Important Safeguards

WARNING:

1. The appliance is not to be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction
